OFFICE OF THE PRESIDENT

March 1, 1967

Dear Seniors:

June 5, 1967 will be a memorable day in your lives. On that day, you will have completed successfully four years of college work and will be awarded your first academic degree.

Your four years at Biscayne have been a maturing time. From adolescence you have passed into young manhood. You are now prepared to face the responsibilities of good citizenship, headship of family, and devotion to God.

We hope your years at Biscayne have been happy ones. They have been happy for us, observing your development and contributing something toward it.

As you leave Biscayne, all the faculty joins me in wishing each of you success in all your undertakings and, more important still, success and happiness in living well.

Sincerely yours,

Rev. Edward J. McCarthy O.S.A.

Does going to college pay?

Yes! The U.S. Census Bureau estimates that the average college graduate will earn \$170,000 more during his working lifetime than a high school graduate. A college diploma pays dividends!

As our country grows ever more technological, a solid educational background

becomes increasingly important in shaping your career.

Congratulations and best wishes to the Class of '67. Go forward with Florida in the exciting and stimulating years ahead. More power to you!
